

# Harrow Borough Based Partnership: 2023/24 Delivery Priorities

## Objective 1:

### Reduce Health Inequalities

**Transformation priority: integrate our services for children, young people and families including the delivery of the Family Hub model**

Deliver our community leadership programme, evaluation impact and align to the development of neighbourhood teams.

Build on the Harrow winter wellness programme to secure accessible community spaces and programmes for preventative and proactive care

Secure our Population Health Management capacity and capabilities, with focus on delivering the CORE20 plus 5 programme with a specific focus on mental ill health

## Objective 2:

### Develop truly integrated out of hospital teams

Design and deliver integrated neighbourhood teams in Harrow in partnership with local communities to deliver preventative and proactive whole person care

Leverage our partnership with local higher education institutions to secure the Harrow workforce

Better engagement with frontline teams and a responsive leadership team to retain our staff

Support our frontline teams to work in an integrated way, removing barriers to integration

Strengthen our support to carers and deliver the Harrow Carers strategy

Focus on digital integration between health and social care

## Objective 3:

### Deliver transformational change in care pathways

Implement the integrated intermediate care pathway for Harrow

Implement the Harrow frailty model

Secure the integrated model of diabetes care in Harrow

Priority focus on the hypertension pathway in Harrow: prevention, case finding and treatment

Harrow Borough  
Based Partnership

Supporting better care and healthier lives
